

## John 15.1-8

Jesus explains that like a healthy vine planted in good soil, we can live our best life with God if we stay close to him, feeding ourselves with his goodness.

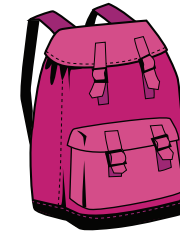

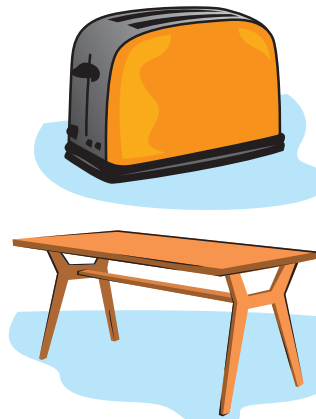

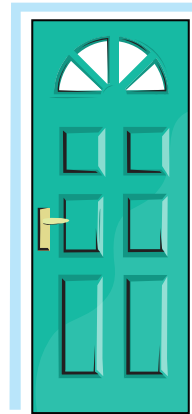

If we are connected to God, we will grow good fruit in our lives.

Write a set of instructions for how to grow in your life with God.

Circle three objects that need to be connected to an energy source to work.

Finish the picture of the garden by adding some plants and flowers.
